CHRIST CHURCH CATHEDRAL

13th & Locust - Downtown St. Louis, Mo.

Called "The Flexible Cathedral" after the 1969 interior renovation, this landmark is unique because the chairs, platform cubes, pulpit, linen curtain, and lighting may be moved and rearranged, not only for liturgical purposes but also for special events such as concerts, lectures, and plays. The Altar and Reredos is of hand-carved Caen stone. Architects: 1867 - Leopold Eiditz, 1969 - Burks & Landberg.
